Jim Wilfahrt Joins Pyxant Labs as President

COLORADO SPRINGS, CO – May 21, 2020 – Pyxant Labs Inc., a privately held bioanalytical CRO, today announced the appointment of Mr. James Wilfahrt as President. Mr. Wilfahrt will lead the Company's operations across all business units and sites.

"As Pyxant Labs continues our growth within specialized bioanalytical service areas, we are continuing to build our team in a way which fulfills our commitment to lead the industry in scientific and regulatory performance," said Maurice Gaubatz, Founder and CEO of Pyxant Labs. "Jim's 30 years of experience spans an exceptional range of bioanalytical operations supporting pharmaceutical drug development. Within both large and small enterprises, he has successfully integrated bioanalytical science and a strong customer focus with the regulated drug development process. Jim's business principles and ideals—most especially relating to people—align strongly with Pyxant Labs culture. I am pleased to add to our team such an accomplished individual to advance the Company through our next growth phases."

"I am very pleased to have the opportunity to join the Pyxant Labs team," says Jim. "The Pyxant Labs team combines an exceptional level of scientific expertise, client focused service and regulatory experience to ensure we continually exceed the expectations of our clients and the regulatory requirements of the industry"

Prior to Pyxant Labs, Mr. Wilfahrt filled a succession of leadership roles within bioanalytical CROs, including Tandem Labs and Covance.

About Pyxant Labs Inc. – Pyxant Labs is a contract research laboratory specializing in bioanalytical chemistry development support for life sciences clients. Founded in 2000, Pyxant Labs utilizes advanced bioanalytical technologies to support preclinical and clinical pharmaceutical development programs, drawing upon the Company's core strengths: Superior scientific expertise, validated regulatory expertise, on time delivery, and anticipatory customer service.
